Proplace

**M&A**

12 October 2026

# **Hightouch** (synchronizing customer data from a data warehouse to advertising platforms, CRM, and marketing activation tools)

## Acquires

# **Strata**

**Deal**

Hightouch has an established European presence with offices in London and Paris and teams in France, German-speaking markets, Italy, the Nordics, and Benelux.

**Perspective**

The acquisition appears to aim at expanding Hightouch's integrations to other components of the marketing stack, a horizontal coverage strategy in a market where value is concentrated among those who connect the largest number of tools frictionlessly.
